Allowable Subject Matter

The following is an examiner's statement of reasons for allowance:

Claims 1-9 are allowable over the prior art of record because the prior art of record does not teach or suggest the entire combination of elements set forth including a bung comprising a body; a roll contacting element frangibly coupled to said body and operative to break when said bung is inserted into said cylindrical opening. None of the references of the prior art teach or suggest the roll contacting element frangibly coupled to the body to be inserted into the cylindrical opening of a paper roll as advanced above and such do not provide the necessary motivation, absent applicant's specification, for modifying the bung in the manner required by the claims.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."

Conclusion

The prior art made of record and not relied upon is considered pertinent to applicant's disclosure.
